Eric, Miki, and Clark:

Please note the correspondence. The MSC has approved the revised PRP for the Western Lake Erie Basin. Thank you for your assistance in this effort.
Hank

Craig:

We concur that the changes have been made to the subject document. I have spoken with John and he support the MSC approves the PRP. The previous MSC Approval Memorandum generated for this project will stand. The District is advised to post the revised PRP on the District website and send the link to Bruce Carlson and Kerry Redican.
Hank

Attached is a table that provides the PCX approved responses to the PRP evaluation, a version of the PRP that does not provide PDT contact information, and a list of all team POCs. Please provide some form of documentation of LRD MSC concurrence with the changes.

Thanks,

Yes. Have LRB tell us when changes have been effected so that we can back check to complete the action.
Thanx,

John:

The changes to the Western Lake Erie Basin Peer Review Plan are very minor. My recommendation is that coordinate via e-mail with the PCX and we acknowledge and approve the changes have been made to the PRP, have the District post the revised PRP, but that we use the existing PRP MSC Approval Memorandum to maintain compliance with the existing regulations for this project. Would you concur with this course of action.
Hank

Hank,

Attached for your coordination is the Revised Peer Review Plan for the Western Lake Erie Basin Feasibility Study submitted for approval by LRD.

As you recall, Roger Setters (FDR PCX) and John Zimmerman had recently approved the original version. Last Monday, the FDR PCX submitted some additional minor comments. They have been responded to, and the FDR PCX has concurred and backchecked our changes. The attached file contains a copy of the revised PRP. Appendix A contains a list of PDT and ITR members that will be removed prior to posting the document to the web. Appendix B contains the LRB Response to Comments from the FDR PCX, along with their e-mail concurring with the changes.

Please call or e-mail me if you have any questions or concerns.

Thanks,
